

## David CHOE 데이비드 초이

David Choe was born in 1976 and raised in Los Angeles. He is one of the most diverse and prolific artists working today and one of the youngest artists to ever have a solo show at the Museum of Contemporary Art LA. He has had his art shown on every surface from canvases to human bodies, to third world war torn walls; his art can be found in every facet of society from galleries and museums to t-shirts, shoes, movies, billboards, cars, murals, buildings. From New York City to the Congo, Africa and everywhere in between.

David has spoken and lectured at Princeton, DUKE, Dartmouth and other art colleges. He works in every medium and can paint anything and everything as well as on anything and everything. He has designed and created fine art, murals, movie sets, movie posters, album covers, shoes, t-shirts, toys, calendars, commercials, cars, magazines, books, illustrations for porn and children's story books, comics, and animation. He has curated art shows; art directed books and magazines as well as self-publishing all his own books which have all won numerous awards.

He has train hopped and hitchhiked all over the world many times over, spreading his art and stories. His art is now in museums and galleries but he still sells art out of his parents garage and his beat up minivan.
